

COLORING CONTEST FOR GRADES 2-5

Win a \$50 U.S. Savings Bond and a chance to win a Party for your Class!

Water... it's an important part of our lives. We use it in our homes, in our businesses and in our communities. It adds to our quality of life, keeps our communities safe from fire and helps support economic development. Middlesex Water Company is committed to providing quality tap water and to increasing awareness of the value of a safe and plentiful water supply. That's why we're inviting students in **Grades 2-5** to participate in our 2007 coloring contest based on the theme: **"Water...Always Flowing Through My Day!"**

Color the picture below and complete the activity grid where you label all the items or activities associated with water. Contest will be judged on use of color, neatness and completion of the activity box. **Be sure to include your Name, School, Grade, School Phone, Home Phone and the Teacher's name who distributed the contest, on the back of this form.** Six winning entries will be selected from all entries received to get a \$50.00 U.S. Savings Bond. And that's not all! One random name will be selected from the six winning entries and that child will receive a party and water education talk for their class hosted by a Middlesex Water Company representative. **Entries must be postmarked by Tuesday, April 3, 2007.** Please send entries to: **Middlesex Water Company, 1500 Ronson Road, Iselin, New Jersey 08830, Attention: "Water... Always Flowing Through My Day" Contest.** Winners' schools will be notified in late April. We regret that due to the growing number of contest entries, it is only possible for us to contact the schools of the winning entries.

Water...Always Flowing Through My Day!

Color the picture area above and label all the items or activities associated with water!
